## Control panels

Control panel with dip switches and potentiometers for one or two 24V electromechanical operators for 230V/80W swing gates. The dual-channel radio receiver is incorporated. The torque is electronically adjusted with an obstacle detection system. The strength of the gates and slowing down space can be adjusted with the potentiometers. Key functions include automatic closing, fast closing, pulse locking when opening and pressure surge when opening. It supports the EELINK protocol.

### Relevant features

The terminal boards are coloured and can be removed to make it easier to perform the wiring.
