AKTA - ERIS

Photocells for automatic gates and safety devices

Wired or wireless adjustable photocells with maximum range 30 m.

Photocells for automatic gates and safety devices

AKTA - ERIS

Code	Ci	Name	Description
P111536	2600813	AKTA A30	Pair of photocells adjustable 180 ° horizontally and 20 ° vertically. Range 30 m. Power supply 24 V ac/dc.

	AKTA A30
Voltage	24 V
Horiz. adjustment	180 °
Vert. adjustment	20 °
Range	30 m
Protection rating	IP55

RECOMMENDED ACCESSORIES

	Cp N190104 - Ci 2600775 BIR C				
	Rubber safety edge (H 30 mm), price per m				

Photocells for automatic gates and safety devices

EasyAXS

EASY CONNECT. EASY ACCESS.

The new connectivity solution which boosts the potential of BFT products and services to make access automations smarter and easier to use for both installers and end users.

Photocells for automatic gates and safety devices

U-LINK 2.0

AN UPDATED VERSION OF U-LINK TO GIVE YOU EVEN MORE FUNCTIONALITY

Scalable

You can add as many devices as you want

Intuitive

Easy to install and to use

Functional

Settings can be controlled and firmware updated remotely using dedicated applications

Practical

Works with or without an internet connection

Flexible

It allows you to create groups of interconnected products

U-Link, the exclusive **BFT** technology platform has evolved to offer improved interaction with the latest generation of technological ecosystems. Its ability to interface with all home access automation access devices has been expanded, meaning it is now a very useful tool for installers. It is also a faster communication protocol with increased security for communicating information.

It allows you to save even more time, checking everything very easily and giving you even more peace of mind.

Photocells for automatic gates and safety devices

U-SECURITY

A NEW AND EVEN MORE SECURE RADIO PROTOCOL

Secure

By transmitting data protected by a cryptographic key

U-Security is the new technology from **BFT** which incorporates encrypted rolling code thanks to the encryption key which masks the remote control code, meaning that it is impossible to clone a BFT remote control using another brand's model.

The functions of the **Er Ready** system are incorporated and a new procedure is also available for programming remote controls by scanning a QR CODE and using a special app. All products featuring this technology are **REPLAY**, so they can transmit the code to another BFT remote control using a combination of keys.

Easy

Pairing a remote control with a receiver can be done easily by scanning the QR code and using the dedicated app

Universal

The radio protocol is also compatible with the previous generation of receivers

INFORMATION REGARDING THE PROTECTION OF THE INDUSTRIAL AND INTELLECTUAL PROPERTY RIGHTS OF BFT. BFT S.p.A. protects its industrial property by depositing trademarks, patents, models and designs. The intellectual property of BFT S.p.A. is protected by copyright law.
