VIRGO

Electromechanical automation systems for swing gates

Electromechanical operator with articulated arm for residential use, for swing gate leaves of up to 2 metres and 200 kg. Ideal for all installation situations, with a lever system for the simple resolution of problems linked to large-size pillars. Control unit. limit switches and mechanical stops incorporated in operator.

Electromechanical automation systems for swing gates

VIRGO

Code	Ci	Name	Description
R930130 00001	2600984	VIRGO KIT FRA	Complete kit 24 V for swing gates up to 200 kg in weight and 2 m in length. Limit switch Electromechanical.

LINX: Control panel with display for 1 or 2 operators, integrated in Virgo

LINX - **Cp** 1104317 - **Ci** 2600704 - Built-in - (Spare part code, available for order through the Technical Support network)

- Control panel with display for 1 or 2 operators, integrated in Virgo
- Application: control panel for one or two VIRGO series operators
- Card power supply: 230 V single-phase
- Operators power supply: 24Vdc
- Main functions: automatic re-closing, fast closing, partial opening
- Main characteristics: removable terminal blocks, incorporated dual channel receiver, anti-crushing, slowdown during opening and closing and electronic self-learning

RECOMMENDED ACCESSORIES

	Cp N733421 - Ci 2600967 RCA		Cp N733422 - Ci 2600457 RCAL
	Lever release with steel cable, length 3,5 m. Compatible with BOX.		Lever release with steel cable, length 7 m. Compatible with BOX.
	new Cp P123032 00001 - Ci 2613516 EBP AC A 230V 50/60HZ		new Cp P123032 00002 - Ci 2613517 EBP AC A 120V 50/60Hz
	230V vertical electric lock.		120V vertical electric lock.
	Cp N574039 - Ci 2610798 BOX		Cp P125008 - Ci 2600839 VIRGO BAT
	Wall cabinet for release with steel cable and electric control; cable not included		Set of backup batteries for VIRGO
	Cp D111761 - Ci 2600083 ME BT		
	Control board for 24Vac solenoid lock for 24V automation systems		

Electromechanical automation systems for swing gates

EasyAXS

EASY CONNECT. EASY ACCESS.

The new connectivity solution which boosts the potential of BFT products and services to make access automations smarter and easier to use for both installers and end users.

Electromechanical automation systems for swing gates

U-LINK 2.0

AN UPDATED VERSION OF
U-LINK TO GIVE YOU EVEN
MORE FUNCTIONALITY

Scalable

You can add as many devices as you want

Intuitive

Easy to install and to use

Functional

Settings can be controlled and firmware updated remotely using dedicated applications

Practical

Works with or without an internet connection

Flexible

It allows you to create groups of interconnected products

U-Link, the exclusive **BFT** technology platform has evolved to offer improved interaction with the latest generation of technological ecosystems. Its ability to interface with all home access automation access devices has been expanded, meaning it is now a very useful tool for installers. It is also a faster communication protocol with increased security for communicating information.

It allows you to save even more time, checking everything very easily and giving you even more peace of mind.

Electromechanical automation systems for swing gates

U-SECURITY

A NEW AND EVEN MORE SECURE RADIO PROTOCOL

- **Secure**
By transmitting data protected by a cryptographic key

U-Security is the new technology from **BFT** which incorporates encrypted rolling code thanks to the encryption key which masks the remote control code, meaning that it is impossible to clone a BFT remote control using another brand's model.

The functions of the **Er Ready** system are incorporated and a new procedure is also available for programming remote controls by scanning a QR CODE and using a special app. All products featuring this technology are **REPLAY**, so they can transmit the code to another BFT remote control using a combination of keys.

- **Easy**
Pairing a remote control with a receiver can be done easily by scanning the QR code and using the dedicated app

- **Universal**
The radio protocol is also compatible with the previous generation of receivers
