## Control panels

Control panel with display for one or two 24V electromechanical operators used on 230V/500W swing gates (Power version).  
 The dual-channel radio receiver is incorporated.  
 It has a crush-proof system based on D-Track technology, controls the slowing down when opening and closing and has an electronic self-learning function.  
 The main functions include automatic closing, fast closing, partial opening and hold-to-run operation.

### Relevant features

The terminal boards are coloured and can be removed to make it easier to perform the wiring.

## THALIA

Code	Ci	Name	Description	
D113747 00002	2600583	THALIA P	Control panel for one or two 24V electromechanical and hydraulic operators for swing gates with electric lock management, for highly complex systems	U-Link
D113745 00002	2600477	THALIA	Control panel with display for one or two 24V electromechanical operators for swing gates	U-Link
I300211 10001	2613928	THALIA	Thalia control panel for one or two 24 V electromechanical operators for swing gates	U-Link
