TIZIANO

Automation systems for garage doors

24 V

er ready

d-track

Just 13 cm thick, the TIZIANO is one of the most compact operators on the market and can be installed in any architectural context. Thanks to the control unit's built-in radio receiver, TIZIANO can memorize the codes of 10 MITTO or KLEIO remote controls and/or wireless control systems such as RB, MIMEPAD or T-BOX.

Relevant features

Anti-break-in blocking system: The exclusive rail-carriage system allows the door to be locked in the closed position even after emergency manual closing.

d-track

D-TRACK: Safety first. This is the basic principle behind all BFT operators, and therefore also the TIZIANO. In fact, the intelligent D-Track movement control system enables the microprocessor to know the exact position and speed of the door at any time, thus guaranteeing absolute perfection in movement, the safest and most reliable anti-crushing system on the market, and automatic adaptation to weather conditions and door wear.

Encoder limit switches: Encoder and D-Track combined in a single operator. The technological level and reliability of the system have made it possible to do away with external stops while still guaranteeing maximum door stopping and positioning precision.

Automation systems for garage doors

TIZIANO

Code	Name	Description
P915199 00002	TIZIANO B GDA 260 S01	Operator for sectional garage doors with tractive force 60 kg and Semi intensive use. Door surface area 10 m ² . Opening speed 6.6 m/min. D-Track

VENERE M B GDA: Control panel for one 24 V operator for garage doors

VENERE M B GDA - Built-in

- Control panel for one 24 V operator for garage doors
- Application: control unit for 1 x 24 V garage door operator
- Card power supply: 230 V single-phase
- Operator power supply: 24V 100W
- Main features: dip-switch programming and potentiometers, incorporated dual channel receiver, D-Track anti-crushing system, slowdown during opening and closing
- Main functions: automatic re-closing, automatic torque control

	TIZIANO B GDA 260 S01
Control unit	VENERE B GDA
Nominal voltage	24 V
Power consumption	100 W
Max. door/gate weight	60 kg
Door surface area	10 m ²
Gate panel speed	6,60 m/min
Type of limit switch	encoder
Slowdown	Yes
Locking	Mechanical
Release	Steel cord or cable
Impact reaction	D-Track
Frequency of use	Semi intensive
Protection rating	IPX0
Environmental conditions	-20 ÷ 60 °C

RECOMMENDED ACCESSORIES

	P115015 00001 - BIN B GDA 3020 CAT Chain rail for TIZIANO B GDA, length 3020 mm, useful travel 2560 mm		P115015 00002 - BIN B GDA 3620 CAT Chain rail for TIZIANO B GDA, length 3620 mm, useful travel 3160 mm
	P115015 00003 - BIN B Gda 2x1510 Cat Chain track divided into two halves for TIZIANO B GDA, length 3020 mm, useful travel 2560 mm		P115015 00004 - BIN B Gda 2x1810 Cat Chain track divided into two halves for TIZIANO B GDA, length 3620 mm, useful travel 3160 mm
	P115026 00001 - BIN B GDA 3020 BELT Monoblock belt rail, length 3020 mm, useful length 2560 mm		P115026 00002 - BIN B GDA 3620 BELT Monoblock belt rail, length 3620 mm, useful length 3160 mm

Automation systems for garage doors

RECOMMENDED ACCESSORIES

	P115026 00003 - BIN B GDA 2x1510 BELT Two-piece monoblock belt rail, length 3020 mm, useful length 2560 mm		P115026 00004 - BIN B GDA 2x1810 BELT Two-piece monoblock belt rail, length 3620 mm, useful length 3160 mm
	new D114093 00003 - RADIUS LED BT A R1 Flashing light with incorporated antenna for motors with 24 V power supply.		new D114094 00003 - RADIUS LED BT A R0 Flashing light without incorporated antenna for motors with 24 V power supply.
	new D114168 00003 - RADIUS LED BT A R1 W Flashing light with incorporated antenna for motors with 24 V power supply. White flashing light.		new P111782 - COMPACTA A20-180 Pair of photocells adjustable 180° horizontally. 20 metre range. 12-33 VAC/15-35 VDC power supply.
	N999620 - SAS1 KIT B GDA 260 B01 Brackets for ceiling mounting TIZIANO B GDA up to max 30 cm		N999621 - SAS2 KIT B GDA 260 B01 Brackets for ceiling mounting TIZIANO B GDA up to max 50 cm
	P115005 - SM1 External manual release for overhead garage door (1 operator)		N733069 - SET/S External release for insulated sectional and overhead doors of thickness up to 50 mm.

Automation systems for garage doors

What is U-Link?

The technology that gives you more power

U-Link, Universal Link, is an exclusive BFT platform that can be used to create high-tech ecosystems.

In Home Access Automation, it can be used to communicate with all home access automation devices of any brand. This saves you time and allows you to control everything easily and without any worries.

It is intuitive

Easy to install and to use

It is scalable

You can add as many devices as you want

It is flexible

It allows you to create groups of interconnected products

It is practical

Works with or without an internet connection

It is functional

Its settings can be controlled remotely using dedicated applications

Automation systems for garage doors

Everything on one screen: find out more about this amazing technology

A world-exclusive platform that **can be used to create high-tech ecosystems** offering a vast range of solutions for many different sectors.

This proprietary platform which is a key feature of BFT products, thanks to the B-EBA cards and the Clonix U-Link receiver, is suitable for any protocol or product for access automation (including BFT products non-BFT ones and older versions) and it can be used in a variety of different sectors. This means any device becomes a smart device which can be interconnected with other systems, using a language that is becoming universal.

U-Control HOME

U-Control HOME is the application that allows you to open the gate to your home and to remotely control BFT automations using your own smartphone. The iOS version can be used to automatically open the automation when you are close to it.

U-Base 2

A software package for installation, performing maintenance and identifying any faults in the U-Link compatible operators, easily and conveniently.

U-SDK

U-SDK is the application which allows BFT automations to be made compatible and easily integrated with a BMS network.

Clonix U-Link

Connect non-native U-Link and non-BFT products to U-Link systems.

Is it possible to connect non-native U-Link BFT operators or other brands of products to U-Link? Yes, thanks to the Clonix receivers. Accessories which accept no limits.

B-EBA

A direct link to your operators.

The B-EBA expansion cards make it possible to connect external devices such as PCs, smartphones and tablets to a BFT operator and a Clonix receiver or to connect multiple BFT products in a U-Link network. These accessories integrate with U-Link technology and with Bluetooth, Wifi, Z-Wave and TCP/IP protocols as well as with the RS485 serial interface. A device that demonstrates exactly what BFT means by interconnectivity.
